

makes a difference

## THE RIGHT SOLUTION FOR EVERY TASK.

The Kärcher Range 2015.

HOME & GARDEN

# FASCINATING DIFFERENCES.

## Table of contents

Outdoor	Indoor
8 Pressure washers	68 Multi-purpose vacuum cleaners
64 Sweepers	84 Ash and dry vacuum cleaners
	86 Spray extraction cleaners
	96 Indoor cleaning

Nowadays many products are interchangeable and offer hardly any unique selling points. Kärcher makes the difference. For instance, terraces, garden furniture and cars are cleaned to a shine and left looking as good as new thanks to the outstanding technology of high-pressure cleaning. Kärcher also makes the difference with steam cleaning. Our new generation of steam cleaners provides non-stop steam for efficient, uninterrupted cleaning. Clean the entire house in an environmentally friendly way.

170	Booster pumps
182	Drainage pumps

# ENTHUSIASM. INNOVATION. SUCCESS.

Since the beginning more than 75 years ago, as a value-oriented family business Kärcher has developed into a global brand which offers its customers three strong attributes: top performance, innovation and quality. Today, Kärcher is a leading global provider of efficient, resource-conserving cleaning systems and is characterised by reliable, user-friendly products, excellent service and ongoing commitment to the environment, culture and sport.

### **Innovative from the beginning**

Kärcher invented the pressure washer – and continues to reinvent it again and again, of course with consistently high product quality. In 1950 Kärcher developed the first European hot water pressure washer for professional cleaning. In 1984 Kärcher then launched the first portable pressure washer, the HD 555, for private households – a milestone in the history of the company and of cleaning.

### **We're there for you, wherever you need us**

Kärcher stands for top performance – not just in terms of products, but also in terms of service. As the world's largest manufacturer of cleaning machines, we are there for our customers worldwide and at more than 50,000 service and sales points. Kärcher is your reliable partner. You can depend on that. At any time.

### **In-house research and development**

Kärcher develops high-performance systems, which include cleaning machines, accessories and special cleaning detergents and care products. We use regular surveys to conscientiously determine what our customers want and need. The insights gained are incorporated directly into product development. This is how we ensure that each new development meets the needs of our customers.

### **Sporting commitment**

Kärcher supports the world-famous Dakar rally as an official partner, for example with a fully-automatic Kärcher recycling system. Equipped with a sand filter, the system processes the washing water and therefore reduces fresh water consumption by up to 85%. By the way: this is an excellent opportunity to demonstrate the efficiency and performance of our products in extreme conditions.

# SUSTAINABLE BUSINESS.

In the quest for sustainability, the journey is the goal. This is the journey into the future that Kärcher has been taking with exemplary commitment for decades. At Kärcher, sustainability is based on the three pillars of economy, social responsibility and environmental protection equally. That also includes treating people fairly and using natural resources responsibly. This approach to sustainability is anchored as a corporate goal at Kärcher: doing business with responsibility for people and the environment.

### **Responsibility for people and the environment**

Kärcher takes its commitment to social responsibility seriously. The Arbeit Plus seal, awarded by the Evangelical Church in 2013, certifies Kärcher's exemplary commitment to training, family support and health care, and highlights the attractive working conditions. Kärcher was also awarded the German CSR prize in the category "cultural commitment as an expression of corporate social responsibility" in 2014 for the restorative cleaning carried out on the listed Kaiser Wilhelm Memorial Church in Berlin. At an international level, Kärcher supports social projects and victims of natural disasters worldwide alongside SOS-Kinderdorf e.V.

Kärcher pursues healthy, sustainable growth that respects people and the environment. With our sustainability strategy 2020, we are aiming to reduce our CO<sub>2</sub> emissions by 20% by 2020. And how do we intend to do that? With efficiency: our combined

heat and power plant has reduced CO<sub>2</sub> emissions by 56% compared to the previous gas heating system. Our woodchip-fired heating plant saves 340,000 litres of heating oil annually and therefore over 1,000 tonnes of CO<sub>2</sub>. Our new ice storage heating system generates a saving of 40 tonnes of CO<sub>2</sub> annually, while our highly efficient heat recovery systems save 51 tonnes of CO<sub>2</sub> annually. There are also three photovoltaic systems that reduce our carbon footprint by a further 50 tonnes annually, and our geothermal system also makes a significant contribution.

Responsible treatment of people and the environment is firmly anchored in Kärcher's code of conduct, which is based strictly on the UN Global Compact and is binding for all of our locations, as well as our suppliers.

# WHY KÄRCHER MAKES THE DIFFERENCE.

## Table of contents

14	Performance classes	42	Pressure washer accessories
18	Overview of devices	58	Cleaning agents
22	The eco!logic range	64	Sweepers
26	Compact, Standard and Premium range		
34	K 4 Silent Edition		
38	The petrol motor range		

Whether it is tender care or powerful cleaning, Kärcher pressure washers offer the perfect solution for every cleaning task. Where previously dirt reigned supreme, afterwards there is nothing but cleanliness. With Kärcher you are enhancing your home environment and returning things to their true value. Passionate engineering, the highest standards of quality and decades of experience in developing innovative pressure washers make this possible.

#### **Quality products – made in Germany**

As the inventor of high-pressure cleaning, Kärcher has unique specialist knowledge, the breadth and depth of which is unrivalled in the marketplace. For over 60 years, Kärcher has been perfecting the art of high-pressure cleaning and is constantly in the spotlight on account of its outstanding innovations. As the global market leader we offer the most reliable pressure washers on the market. We manufac-

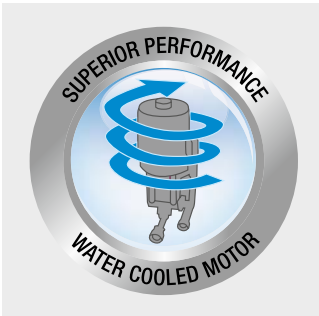

ture all of our machines in our own factories to the highest production standards. Before the products leave the factories, they are fully tested for their functionality and performance. That is why we can always guarantee to our customers that they are purchasing perfect products, which speak for themselves in terms of their performance capabilities and long service life.

# OUTSTANDING CLEANING PERFORMANCE.

Compared with the competition, Kärcher pressure washers are distinguished by a greater stripping performance and cleaning efficiency. In short: **cleaning is faster and cleaning times are reduced by up to 50%, thereby saving up to 50% energy and water.** Behind these impressive figures, which have been officially confirmed by the Fraunhofer Institute, is sophisticated, patented nozzle technology and optimal adaptation to the power of individual machines.

#### **Advanced motor technology**

Classes K 4 – K 7 of the Kärcher Compact, Standard, Premium and ecologic Range, as well as the new K 3 Premium Range, are equipped with innovative water-cooled motor technology and set new standards. Instead of a cooling fan, water is used to cool the motor. Before the water is used for cleaning, it flows around the motor casing, providing constant cooling. The benefits: a high level of efficiency and durability.

#### **Versatility is the name of the game**

Kärcher offers the largest range of accessories and cleaning agents on the market, and therefore opens up unlimited application possibilities for high-pressure cleaning. Kärcher has the right solution for almost any cleaning challenge. The perfect example: Kärcher's new surface cleaners, which cut cleaning times for horizontal and vertical surfaces in half – and without annoying water spray.

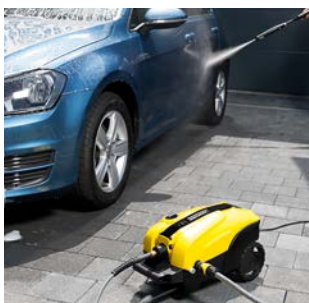

#### **Sustainability is our guiding principle**

In direct comparison with a water hose, Kärcher pressure washers save up to 3,100 litres of water per hour, thereby reducing water consumption by around 80%. What's more, pressure washers in classes K 3 – K 7 can also be operated with service water. The machines simply draw the water from a tank, for example a water butt. The operator therefore saves precious drinking water, protects the environment and can work independently of the water mains. On top of that, Kärcher is the only manufacturer on the market to offer special ecologic pressure washers in its range.

# THE RIGHT PRODUCT RANGE FOR ALL YOUR NEEDS.

Diversity is the name of the game at Kärcher: as well as pressure washers with various performance classes, there are also different product ranges available. Behind every product range there is a totally unique product concept, which takes into account specific customer requirements. Therefore the focus is on, for example, operating comfort, compactness, sustainability, weight, noise reduction, mobility or special areas of application such as balcony cleaning. In short: at Kärcher, we have the perfect pressure washer for everyone – guaranteed.

#### **Premium eco!ogic Range**

Environmentally friendly technology: the eco!ogic Range stands for an exemplary sustainable approach to natural resources and an environmentally friendly choice of materials.

#### **Standard Range**

The upright pressure washers in the Kärcher Standard Range impress with their sophisticated design and provide everything that a modern machine should have today. This also includes, for example, detergent application for an extended range of applications.

#### **Compact Range**

Small yet powerful: Kärcher's Compact Range impresses with its compact dimensions, minimal floor space requirements, easy storage and high level of mobility.

#### **Premium range**

Attractive appearance meets impressive functionality: devices in performance classes K 4 and above are fitted with an additional hose reel, making them even more practical

#### **Silent Edition**

The K4 Silent Edition with innovative silent function is ultra-quiet and operates at a 50% lower noise level. Additionally, the PremiumFlex™ hose with anti-twist system effectively prevents knots and kinks from forming.

# THE RIGHT PERFORMANCE CLASS FOR ALL YOUR NEEDS.

The performance class is the key distinctive feature for pressure washers and a significant parameter in terms of the cleaning time required. The right machine makes cleaning considerably easier. All technical features are adjusted in line with the cleaning application, and then linked to the right pressure washer class to make various cleaning tasks even easier and more efficient.

### **The right performance class.**

The cleaning performance of a pressure washer is determined by how the pressure and water volume are used in combination. The better these two factors are aligned, the easier it is to remove stubborn dirt and the quicker large surface areas can be cleaned. Kärcher puts its devices into specific performance classes based on different cleaning requirements. The larger the surface area to be cleaned and/or the more stubborn the dirt, the higher the performance class recommended.

To clean large surface areas such as façades, a K 7 device with corresponding accessories would be the best fit. As well as offering better performance, higher unit classes also offer practical additional functions. These include longer hose lengths for a considerably greater working radius and better hose quality to improve twist resistance and flexibility.

# THE RIGHT KIT VARIANTS FOR EVERY TASK.

Kärcher pressure washers are available now, with the right cleaning kit for you – Home, Car or Car & Home. This means that you can purchase device and kit together, offering the complete cleaning solution for your requirements at a reasonable price.

Premium eco!ogic Home Kit

#### eco!ogic Home Kit

Pressure washers from the eco!ogic range with T 350 or T 450 surface cleaner (including splash guard) plus eco!ogic universal cleaner in a practical Plug 'n' Clean bottle. Suitable for cleaning large areas, corners and edges.

#### Home Kit

Pressure washer with surface cleaner (including splash guard) plus 3-in-1 stone cleaner and care agent. For large areas and with pressure adjustment for sensitive surfaces.

#### Car Kit

Pressure washer with foam jet, 3-in-1 car cleaning agent and cleaning brush. Devices in performance classes K 5 and above include drying cloth.

#### Car & Home Kit

Pressure washer with foam jet, 3-in-1 car cleaning agent and cleaning brush. Surface cleaner (including splash guard) plus 3-in-1 stone cleaner and care agent. For large areas and with pressure adjustment for sensitive surfaces.

# THE PREMIUM eco!ogic RANGE.

Premium eco!ogic machines have the tried and tested Kärcher quality and are the market leaders in terms of environmental protection: they allow targeted use of water only where it is needed, thereby reducing water consumption. Innovative technology and intelligent solutions enable an exemplary approach to resources. All Premium eco!ogic pressure washers are made from approximately 60% recycled materials and are free from phthalates and PVC. The packaging is made from FSC cardboard.

## Clean Water for the World

Kärcher not only produces resource-conserving machines, but is also committed to water conservation. For example, it has set up the “Clean Water for the World” project in partnership with the Global Nature Fund. For every eco!ogic pressure washer sold, additional money is donated to building biological water filtration systems all around the world. This means that, with each machine sold, 1,000 litres of water in rivers and lakes around the world is cleaned. A success story for nature and the human race!

#### **Save water**

The Premium eco!logic range K4 – K7 have a mode where you can use 20% less water. eco! mode is ideal for cleaning tasks that require less water, such as cleaning cars, bicycles or garden furniture. The water suction hose, which is included in the scope of supply, also allows for the use of collected rain water.

#### **Energy-saving**

With the eco! setting, 20% less energy is used in the K4 – K7 models. Operators can decide for themselves when to use the eco! mode in order to save water and energy.

#### **Responsible selection of materials used**

Kärcher places a huge emphasis on the careful selection of materials, takes care to ensure environmental compatibility and avoids substances such as phthalates and PVC that are detrimental to the environment and to health.

#### **Resource-conserving use of materials**

Up to 60% of the plastic content in Kärcher products is recycled plastic. For our eco!logic packaging at least 70% post-consumer recycled material or material from sustainable forestry is used. The surfactants contained in Kärcher eco!logic detergents consist of only renewable raw materials and no crude oil.

# THE K 7 PREMIUM eco!ogic RANGE.

## K 7 Premium eco!ogic

- 20% water and energy savings due to eco! mode
- Use of environmentally-friendly materials
- Highly efficient water-cooled eco! motor

### Technical data

Max. pressure	bar / MPa	20-160 / 2-16
Max. flow rate	l/h	600

### Savings at the flick of a switch

Thanks to the eco!switch, water and power consumption are reduced by 20% with a simple click. In this case water can be drawn up via the suction hose supplied and the cleaning work will be complete in no time – effective and resource-conserving.

### Plug 'n' Clean

No emptying and rinsing of the detergent tank: detergents can be easily replaced, then off you go.

## KIT VARIANTS

### K 7 Premium eco!logic Home Kit:

K 7 Premium eco!logic, surface cleaner T 450, eco!logic universal cleaner.

# COMPACT, STANDARD AND PREMIUM RANGE.

With its Compact, Standard and Premium product ranges, the Kärcher Core products offer the right machine for every operator. Which pressure washer is right for you?

### **Kärcher upright devices – now even more convenient**

Kärcher upright devices are carefully designed right down to the smallest detail. The convenient Plug 'n' Clean system means that detergents can be changed with just one hand movement. Simply remove the old bottle, insert the new one – and off you go. In all models, the high-pressure hose can be stored directly on the device after use. The devices are equipped with generously proportioned hose hooks for this purpose. The Premium models have a hose reel for clean and convenient storage of the high-pressure hose.

### **The Compact Range – simply practical**

The Compact Range machines are impressive due to their incredibly compact dimensions. A robust, extendable aluminium telescopic handle allows for easy transport and can simply be retracted again for better storage once the work has been completed. When completely inserted, the telescopic handle combines with a handle on the casing to form a compact, stable carrying handle.

# THE K 7 PREMIUM RANGE.

## K 7 Premium

- Highly efficient water-cooled motor
- High-pressure hose reel
- Plug 'n' Clean detergent system

K 7 Compact, T 450, Stone cleaner 3-in-1.

# K 4 SILENT EDITION. DO AWAY WITH DIRT. AND DECIBELS.

The K4 Silent Edition with durable water-cooled motor is suitable for moderate dirt, for example on fences, garden furniture and terraces. The device is ultra-quiet thanks to the silent function. Other advantages include the PremiumFlex™ hose with anti-twist system, elastic strap for storing the pressure hose and electric cord, two carrying handles, a telescopic handle for optimum mobility and many other practical features.

#### **K 4 Silent Edition: ultra-quiet cleaning**

Quiet yet powerful: the new K 4 Silent Edition machines are the quietest pressure washers in their class. Kärcher has managed to reduce the noise level by an astonishing 50 % compared to conventional pressure washers in the same performance class. The K 4 Silent Edition is therefore ideal for use in noise-sensitive places.

#### **50% less noise**

We think daily life is loud enough as it is. This is why we are constantly working on making our devices even quieter. Can you hear the difference?

# K 4 SILENT EDITION.

## K 4 Silent Edition

- Very quiet (max. 81 dB (A))
- 6 m PremiumFlex™ hose with anti-twist system
- Elastic storage strap with clip-in function
- Small and robust

### Technical data

Max. pressure	bar / MPa	20-130 / 2-13
Max. flow rate	l/h	420
Area performance	m <sup>2</sup> /h	30
Connected load	kW	1.8

\* Compared with devices in the same performance class.

# THE PETROL ENGINE RANGE.

Maximum flexibility – without electricity. The G Range makes it possible. Thanks to the powerful petrol engines, the machines do not require a power supply. Thanks to its sturdy frame and large wheels, the G Range is also suitable for use on challenging terrain. The G Range – ideal for trailers, HGVs, boats, driveways and much more.

### **The petrol engine Range**

Cleanliness with no limits: the petrol engine G Range allows for 100% independent work without access to the mains power supply, far away from any plug socket, and is also impressive due to excellent performance data. The suction function means that, if required, the water supply can also be

independent of the mains water, for example it can be taken from water butts or canisters. Thanks to its sturdy frame and large wheels, the G Range is particularly well suited for use on challenging terrain. Some tried-and-tested applications include, for example, trailers, HGVs, boats and driveways.

# FOR INDIVIDUAL REQUIREMENTS.

## G 7.10

- Powerful petrol engine
- Spray gun holder and hose hook
- Robust frame

### Technical data

Max. pressure	bar / MPa	20-160 / 2-16
Max. flow rate	l/h	470
Area performance	m²/h	50

More information on devices at [www.kaercher.com](http://www.kaercher.com)

### **Injector**

In G Range machines, detergent is drawn up by the special injector and then applied during low pressure operation.

### **Petrol operation**

The powerful petrol engine is easy to start and enables mains-free cleaning.

### **For any terrain**

The extra large wheels ensure that the machine is easy to manoeuvre and use, even on difficult terrain.

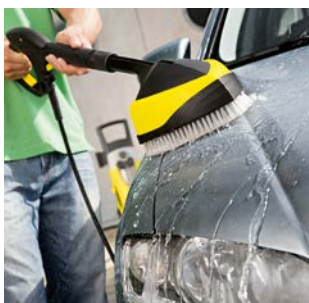

### **Clean and tidy**

The practical accessory storage ensures that accessories are kept tidy. All parts can be stored conveniently on the machine.

# THE PERFECT ADDITION.

Whether surface cleaners, wash brushes, extension spray lances, foam jets or 3-in-1 cleaning agents, Kärcher's diverse range of special accessories and cleaning agents offers the right solution for every task. New to our range: with their twin-jet rotating arm, the T-Racer surface cleaners are capable of removing dirt over a large area and clean twice as fast as a spray lance.

#### **Great accessories for optimal results**

Kärcher offers an extensive range of accessories for powerful and effective cleaning. From water taps to pipe cleaning kits – Kärcher has accessories to cover all your needs.

#### **Detergents with triple effect**

Kärcher detergents are impressive due to their unique 3-in-1 operating principle. In addition to the perfect cleaning effect, the multi-talented detergents also offer gentle care and reliable protection. By using renewable and natural resources, Kärcher is placing the emphasis on sustainability. The smart bottle design is a winner too. Whether it is for connection (Plug 'n' Clean), to fill the detergent tank or as a container for suction via the detergent suction hose, the new detergents are universally suitable for all Kärcher pressure washers.

# QUALITY FROM TAP TO MACHINE.

With a wide selection of garden hoses, universal connectors, water supply hose sets and hose trolleys, Kärcher's tried-and-tested quality comes into its own as soon as you connect your pressure washer to the tap.

#### **Universal hose connector**

Ergonomic design for comfortable handling.

Order no. 2.645-191.0

#### **Hose set for pressure washers**

All-in-one for supplying your pressure washer with water

Order no. 2.645-156.0

#### **Hose trolley HT 3.420 Kit 5/8"**

Height-adjustable, crank handle and space-saving storage.

Order no. 2.645-167.0

#### **PrimoFlex® hose**

Extra robust and kink-resistant quality garden hose.

Order no. 2.645-138.0

## OUR SURFACE CLEANERS.

With Kärcher surface cleaners, cleaning exterior surfaces is quick, efficient and spray-free. The pressure can be adjusted for gentle cleaning of various surfaces such as wood or stone. With the new T 550, cleaning agents can now also be applied during cleaning, if necessary. With their twin-jet rotating arm, Kärcher T-Racers are capable of removing dirt over a large area and clean twice as fast as a spray lance.

#### **T-Racer T 550**

Surface cleaner including cleaning agent applicator.  
Order no. 2.643-251.0

#### **PS 40 power scrubber**

With three integrated high-pressure nozzles. Perfect for stairs.  
Order no. 2.643-245.0

#### **T-Racer T 450**

With adjustable cleaning pressure and extra power nozzle for cleaning corners and edges.  
Order no. 2.643-214.0

#### **T-Racer T 350**

For cleaning different surfaces, including vertical surfaces.  
Order no. 2.643-252.0

## OUR BRUSHES.

Gentle yet powerful cleaning! Kärcher cleaning brushes are the perfect assistants for all materials, from paint or varnish to glass, plastic or aluminium. Whether pivoting arms, rubber ring protectors or high-pressure nozzles – we have every need covered.

Save water, energy and up to 30% time with the Power Brush WB 150. Thanks to the clever combination of high-pressure jet and manual brush pressure, you can clean gently and effectively.

#### **Power Brush WB 150**

Saves time and water with high-pressure nozzle!

Order no. 2.643-237.0

#### **Rotating Wash Brush WB 100**

With flexible joint adjustable across 180° for hard-to-reach areas.

Order no. 2.643-236.0

#### **Soft Wash Brush WB 50**

With soft bristles that are gentle on surfaces and a protector ring.

Order no. 2.643-246.0

#### **Wheel washing brush**

With 360° water distribution.

Order no. 2.643-234.0

# OUR SPRAY LANCES AND EXTENSION PIECES.

Whether it's the four-metre-long telescopic lance for effective and convenient cleaning of high areas, the splash guard for preventing dirty water spray during cleaning, the Multi Power Jet with five different spray types, the Vario Power Jet Short 360° for reaching nooks and crannies, or the dirt blaster with rotating detail nozzle for particularly stubborn dirt – Kärcher has the right spray lance with corresponding accessories for every application.

#### **Vario Power Jet Short 360°**

With smooth adjustable pressure regulation and 360°-joint.  
Order no. 2.643-254.0

#### **Multi Power Jet**

With five different spray types in one spray lance!  
Order no. 2.643-238.0

#### **Telescopic lance**

Extendable from 1.2 - 4 m for hard-to-reach places.  
Order no. 2.642-347.0

#### **Splash guard**

Reliably prevents spray water and dirt spray.  
Order no. 2.640-916.0

# OUR HOSES.

Whether you need a replacement or extension for more flexibility, Kärcher's high-quality range of hoses can meet all your needs. They are available either with Quick Connect or the traditional screw connection. With the retrofit set, old machines can be fitted with the easy-to-use Quick Connect system at a later date, with the sole exception of hose reel machines.

**Extension hose XH QR rubber**  
For greater flexibility and with Quick Connect System.  
Order no. 2.641-708.0

**High-pressure replacement hose kit**  
For upgrading to the practical Quick Connect System.  
Order no. 2.641-828.0

**Extension hose adapter set**  
Two-part upgrade set for Quick Connect System.  
Order no. 2.643-037.0

# OUR SPECIAL APPLICATIONS.

With the right accessories, you can turn your Kärcher pressure washer into an all-rounder for a multitude of additional applications. With the vario joint, even hard-to-reach places can be reached effortlessly. Pipe blockages and gutters can be cleaned easily with the roof gutter and pipe cleaning kit. The 5 m suction hose with filter, anti-slip washer and 90% recyclable material allows water to be sucked up from various sources, including ponds, water butts and pools. The new chassis cleaner rounds off Kärcher's range of vehicle care products.

**Roof gutter and pipe cleaning kit  
PC 20**

Tackling blocked pipes and dirty gutters using high pressure.  
Order no. 2.642-240.0

**Foam jet Connect 'n' Clean FJ 10 C  
3-in-1 car shampoo**

Quick changeover system for detergent application. Produces powerful foam.  
Order no. 2.643-144.0

**Suction Hose SH 5 eco!logic**

For drawing water from alternative sources. Free from phthalates and PVC, up to 90% recyclable.  
Order no. 2.643-100.0

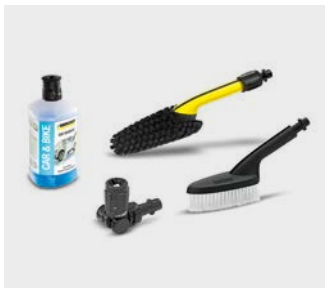

**Kärcher Organisier**

Wall bracket for tidy storage of Kärcher accessories.  
Order no. 2.641-630.0

# OUR ACCESSORY KITS.

Kärcher expertise in one box. Kärcher's new accessory kits deliver impeccable cleaning results! Whether for wood or stone surfaces, vehicles or bicycles, the accessories combined with the many special cleaning agents guarantee thoroughly clean results. Best of all: the new kits are compatible with all Kärcher consumer pressure washers in classes K 2 to K 7.

#### **Bike cleaning accessory kit**

For cleaning and caring for motorcycles, etc.

Order no. 2.643-551.0

#### **Wood cleaning accessory kit**

For cleaning and caring for wood and stone surfaces.

Order no. 2.643-553.0

#### **Car cleaning accessory kit**

For cleaning and caring for vehicles.

Order no. 2.643-554.0

# THE PERFECT ADDITION: KÄRCHER CLEANING AGENTS AND CARE AGENTS.

For over 30 years, Kärcher has placed huge emphasis on environmental sustainability and resource conservation in the development and production of its cleaning agents and care agents and the choice of raw materials that go into them. The cleaning agents, which are specifically designed for the machines, not only guarantee optimum cleaning results but also save water, time and energy. At least some degree of biodegradability is always guaranteed. With its new ecologic universal cleaner, however, Kärcher goes one step further by using surfactants made exclusively from 100% renewable raw materials and a bottle made from >96% plant-based plastic – another plus point in terms of environmental protection.

#### **eco!ogic universal cleaner, 1 l**

Powerful, ecological universal cleaner with surfactants made from 100% renewable raw materials and a bottle made from sugar cane plastic.

Order no. 6.295-747.0

#### **Universal cleaner, 1 l**

Powerful universal cleaner with new active dirt remover which effortlessly removes oil, grease and stubborn mineral dirt even with cold water.

Order no. 6.295-753.0

#### **Universal cleaner RM 555, 5 l**

Powerful multi-purpose cleaner which effortlessly removes oil, grease and mineral dirt. For garden furniture, vehicles, façades and all water-resistant surfaces.

Order no. 6.295-357.0

#### **Universal cleaner folding pouch, 0.5 l => 5 l**

Universal cleaning agent concentrate in practical folding pouch. For gentle removal of oil, grease and mineral dirt from stone, wood, plastic, glass, metal and vehicle paintwork.

Order no. 6.295-385.0

#### **Spray agent, 25 kg sack**

Fine spray agent (granulation 0.2 – 0.8 mm) for gentle cleaning of bricks, tiles, steel, hardwood and concrete. Perfect for rust and paint removal.

Order no. 6.280-105.0

# CLEANING SOLUTIONS AROUND THE HOUSE.

Kärcher's powerful and environmentally friendly cleaning and care agents ensure uncompromising cleanliness around the home and contribute to the value retention of plastic, wood and stone surfaces. They are easy to use and with their targeted action are effective against all types of dirt. Even oily, greasy dirt on garage floors and driveways can be removed effortlessly.

#### **Stone cleaner, 1 l**

Powerful stone cleaner with unique 3-in-1 formula for outstanding cleaning performance. With active dirt remover, protection formula to keep stone clean for longer, and wind and weather protection.

Order no. 6.295-765.0

#### **Wood cleaner, 1 l**

Powerful wood cleaner with unique 3-in-1 formula which offers exceptional cleaning performance thanks to the active dirt remover, as well as a UV protection formula and intensive care. Can be used outdoors.

Order no. 6.295-757.0

#### **Plastic cleaner, 1 l**

Powerful plastic cleaner with unique 3-in-1 formula which offers exceptional cleaning performance thanks to the active dirt remover, as well as a colour and material protection formula. Can be used on garden furniture, plastic window frames, etc.

Order no. 6.295-758.0

#### **Glass finisher, 1 l**

Saves time and effort: the 3-in-1 glass finisher ensures lasting cleanliness without spots or streaks and is particularly suitable for large, hard-to-reach windows (e.g. winter gardens and glass facades). Not effective on coated glass surfaces.

Order no. 6.295-474.0

#### **Patio & Deck folding pouch, 0.5 l => 5 l**

Cleaning agent concentrate in practical folding pouch. For gently removing oil, grease, dirt caused by emissions, moss and soot from balconies and terraces made from wood and stone.

Order no. 6.295-388.0

#### **Boat cleaner, 1 l**

For powerful cleaning of boats and ships. Algae, oil and saltwater residues are efficiently removed. UV protection slows down the bleaching and yellowing of plastic. Material protection for long-lasting flexibility and extended lifespan of materials.

Order no. 6.295-834.0

# CARE PRODUCTS THAT LEAVE CARS AND VEHICLES GLEAMING.

Effective vehicle washing, removal of insect residues, drip-free window cleaning, effective protection against dirt and corrosion, and gentle on paintwork – Kärcher offers a wide range of products for vehicle washing and care. This includes the innovative rim cleaner, which cleverly changes colour letting you know when the contact time is up. In short: maintenance that leaves cars, motorcycles and other vehicles gleaming.

#### **Car shampoo, 1 l**

Powerful car shampoo with unique 3-in-1 formula which offers exceptional cleaning performance thanks to the active dirt remover, as well as a quick dry formula and ultra-shine formula.

Order no. 6.295-750.0

#### **Car shampoo folding pouch, 0.5 l => 5 l**

Cleaning agent concentrate in practical folding pouch. For gentle removal of oil, grease, winter and road dirt from vehicle paintwork, glass, plastic and chrome.

Order no. 6.295-386.0

#### **Ultra foam cleaner, 1 l**

With extra foam booster for an even deeper clean. Thanks to the new active dirt remover, it effortlessly and quickly removes oily and greasy dirt, as well as typical vehicle dirt and road dirt. Phosphate-free and gentle on materials.

Order no. 6.295-743.0

#### **Chassis wax, 1 l**

Nourishing chassis wax for use with the chassis cleaner and care nozzle. The chassis intensive care and the salt protection formula ensure effective protection against road dirt, winter grit and corrosion.

Order no. 6.295-759.0

#### **Rim cleaner, 500 ml**

Product description: gently removes brake dust, winter grit and other road dirt from all types of steel and light metal wheel rims. Easy to apply thanks to the effective gel formula.

Order no. 6.295-760.0

#### **Insect remover, 500 ml**

Gently removes insects from paint surfaces, radiator grilles, external mirrors, panels and plastic.

Order no. 6.295-761.0

# **SWEEPING – 5 TIMES FASTER THAN WITH A BRUSH.**

Sweeping really can be that simple. With Kärcher sweepers, foot-paths, driveways and garage entrances or patios can be cleaned quickly, conveniently and reliably. All exterior surfaces are cleaned spotlessly in no time – without the effort of bending down. No brush can match their cleaning performance.

### Quick, quicker, Kärcher

With our sweepers, operators can clean up to five times faster than with a dustpan and brush. The machines are very easy to use.

### Easy removal

The waste container in Kärcher sweepers can be removed very easily for emptying – grab, lift, done!

### Pure enjoyment

Easy sweeping without any effort or exertion – makes sweeping fun.

## DEVICE OVERVIEW.

#### **Uncomplicated and compact**

All of our sweepers can be stored compactly in a few simple steps: simply fold down the push handle and position the sweeper vertically. Done!

#### **Stand-alone**

The waste containers can be removed easily and are designed so that they can be put down safely.

#### **Large-capacity container**

The S 750 offers a generous container with ample space for large quantities of debris.

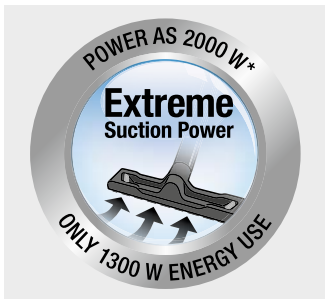

#### **The right angle**

With the handy rotary knob, the push handle can be adjusted quickly and easily to the optimum position.

# THE MOST POWERFUL EVER.

Kärcher multi-purpose vacuum cleaners, with their wide range of applications, offer outstanding suction power, low power consumption, specially developed floor nozzles and extremely convenient accessories. Whether for dry, wet, coarse or fine dirt: this product generation ensures optimum dirt pick-up at all times, giving perfect cleaning results all round.

#### More powerful than ever

Thanks to special energy-efficient motors and the flow-optimised construction of the machines and accessories, Kärcher multi-purpose vacuum cleaners are not only significantly more powerful than their predecessors, but also the most powerful Kärcher vacuum cleaners of all time for the consumer market. The advantages at a glance: optimum dirt pick-up, considerable time saving, wide variety of applications.

#### More convenient than ever

With innovative filter removal technology, available in the middle and top class ranges, the filter can be removed in seconds. In addition, the flat pleated filter, made popular in our professional cleaner range, is contained in a filter box in the machine head – which means extra-quick removal in two easy steps. Just open up the filter box and remove the filter – done! The advantages at a glance: quicker and more convenient filter removal, no contact with dirt and no spreading of dust.

Cable length	m	6

### Equipment

Suction hose (35 mm)	3.5 m
2 × 0.5 m suction tubes (35 mm)	Stainless steel
Wet/dry floor nozzle	Switchable
Filter bag	Fleece
Flat pleated filter	With nano-coating
Blower function	■
Order number	1.347-630.0

### Uniquely efficient

Convenient ExPress filter cleaning at the push of a button: In just one simple action, the Kärcher flat pleated filter is blasted clean in seconds by powerful blasts of air to restore full suction power.

### Tidy working

With the WD 7.700 P, dirt that is generated when working with power tools can be vacuumed up as soon as it forms.

### Capturing dust

The nano-coated filter remains cleaner for a longer period of time, the dust retention rate is higher and dust stays where it belongs.

### Sturdy and stable

Thanks to the trolley function, the WD 7.700 P is easy and convenient to manoeuvre, even on uneven terrain and stairs.

■ Included in the scope of supply.

# ASH AND DRY VACUUM CLEANERS – POWERFUL AND TÜV-TESTED.

## AD 3.200

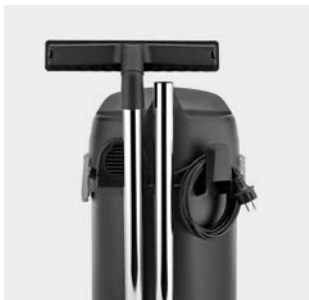

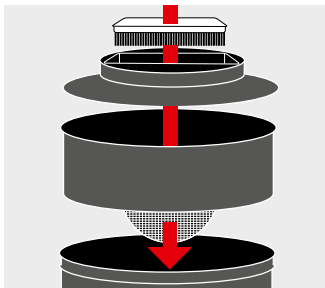

- Metal container and hose
- Innovative filter system
- Suction tubes and floor nozzle

### Technical data

Max. motor rating	W	1200
Vacuum	mbar	200
Container	l	17, metal
Cable length	m	4

### Equipment

Suction hose (35 mm)	1.7 m
2 × 0.5 m suction tubes (35 mm)	Metal, chrome-plated
Floor nozzle	Clips with 2 brush strips
Filter system	Metal flat pleated filter and coarse dirt filter
Accessory storage	■
Storage space for small parts	■
Order number	1.347-662.0

#### **Effective filter system**

An impressively large amount of ash can be vacuumed up thanks to the unique filter system which comprises a flat pleated filter and a coarse dirt filter.

#### **Fully functional dry vacuum cleaner**

A floor nozzle is also included in the scope of supply as standard. When combined with the high-quality chrome-plated suction tubes, the AD 3.200 becomes a standard dry vacuum cleaner.

#### **TÜV-tested**

As part of a test process developed specially for Kärcher, TÜV Süd confirmed that the ash and dry vacuum cleaner offers maximum safety when vacuuming ash.

#### **Organised accessories**

The cable and all the accessories included as standard can be stored away quickly and compactly in the accessory storage.

# SPRAY EXTRACTION CLEANERS – FOR THOROUGH CLEANING RESULTS.

## SE 5.100

- 2-in-1 Comfort System: integrated spray extraction hose
- Kärcher nozzle technology: reduces drying time by 50%
- Ideal for allergy sufferers and households with animals

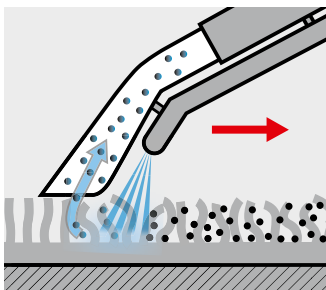

### Technical data

Air flow	l/s	70
Vacuum	mbar	210
Clean/dirty water tank	l	4/4
Working width	mm	230

### Equipment

Spray extraction hose with handle	2 m
2 × 0.5 m spray extraction tubes	■
Spray extraction nozzle with hard surface attachment	■
Floor nozzle	Switchable
Crevice nozzle and upholstery nozzle	■ / ■
RM 519 (100 ml)	■
Order number	1.081-200.0

More information on devices at [www.kaercher.com](http://www.kaercher.com)

### **Spray extraction principle**

During spray extraction, the water with detergent is sprayed on in one operation and then immediately vacuumed up again with the dirt.

### **Hygienically clean**

Kärcher spray extraction cleaners are not only ideally suited to allergy sufferers, they are also ideal for households with pets.

### **2-tank system**

Separate containers for clean and dirty water – each with a handle for easy removal, filling and emptying.

### **Fully functional multi-purpose vacuum cleaner**

With the clean water tank removed, the SE 5.100 can be used as a fully functional multi-purpose vacuum cleaner.

# NEW ACCESSORIES – FOR GREATER CONVENIENCE AND CLEANLINESS.

Kärcher offers an extensive and useful range of multi-purpose vacuum cleaner accessories for everyday use as well as for special applications. From the right nozzle and the appropriate hose to specialised filter systems, all our components are designed to work together in the best possible way. Thus, Kärcher multi-purpose vacuum cleaners can meet the specific requirements of the application in which they are being used and ensure outstanding cleanliness in all areas.

### **Coarse dirt kit**

Coarse dirt generated by renovation work or DIY can be removed effectively and conveniently with the new coarse dirt kit. The ergonomically shaped handle and high-quality floor nozzle ensure the highest level of convenience. Thanks to the high suction power, even large quantities of coarse dirt can be removed in no time. Expected availability April 2015. Order no 2.863-220.0

### **Car interior cleaning kit**

Whether for foot mats, car seats, gaps or delicate fittings – the tried-and-tested accessory kit enables impeccable all-round car interior cleaning. Kärcher has continued to improve the kit: the extra long crevice nozzle can now fit into even narrower gaps. There are also two new suction brushes: the suction brush with soft bristles enables gentle cleaning of sensitive surfaces, for example around the control panel. The suction brush with hard bristles guarantees excellent cleaning results on materials that are hard to clean, like foot mats. Expected availability April 2015. Order no. 2.863-225.0

## SPECIAL APPLICATIONS.

Special application problems require specific solutions: cleaning ash residues from fireplaces, barbecues and sauna ovens is no problem using a high-quality, metal Kärcher ash filter and a Kärcher multi-purpose vacuum cleaner. The 3.5 m suction hose extension is also extremely practical, ensuring optimum freedom of movement when working.

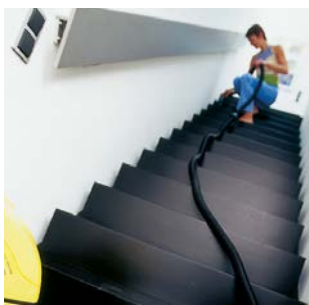

#### **Ash filter/coarse dirt filter**

Premium ash filter/coarse dirt filter consists of a 20-litre metal container, a 1-metre flexible metal suction hose with removable metal pipe, and a fine filter which removes even the finest dust. Particularly suitable for cleaning fireplaces, barbecues and sauna ovens. Also suitable to remove coarse dirt. For all multi-purpose vacuum cleaners from the Home & Garden area. Order no. 2.863-161.0

#### **Metal crevice nozzle (for ash filter/coarse dirt filter)**

Extra long metal crevice nozzle (360 mm) to vacuum cold ash from hard-to-reach places, for example fireplaces, barbecues and sauna ovens. Order no. 2.640-951.0

#### **Suction hose extension**

The 3.5 m long suction hose extension is suitable for all Kärcher Home & Garden multi-purpose vacuum cleaners and provides a larger working radius and greater freedom of movement. Order no. 2.863-001.0

# FILTERS AND FILTER BAGS.

Kärcher cartridge and flat pleated filters pack an impressively large filter area into a very small space. Easy to replace, the Kärcher paper and fleece filter bags ensure excellent filter capacity and tear-resistance.

#### **Flat pleated filter MV 4 to MV 6**

Contained within a filter box, the flat pleated filter can be replaced very simply and quickly - with no contact with dirt. For wet and dry vacuuming without having to change the filter.  
Order no. 2.863-005.0

#### **Cartridge filter MV 2 & MV 3**

Allows both wet and dry vacuuming, without the need for a filter change.  
Order no. 6.414-552.0

#### **Fleece filter bag MV 4 to MV 6**

Extremely tear-resistant, high degree of dust retention. Allows significantly longer vacuuming than with paper filter bags.  
Order no 2.863-006.0

#### **Paper filter bag MV 3**

With outstanding filter capacity and high tear-resistance.  
Order no. 6.959-130.0

# ACCESSORIES AND FILTERS FOR SPRAY EXTRACTION CLEANERS.

With Kärcher's spray extraction nozzle for upholstery cleaning, stubborn stains on upholstered furniture and car seats can be removed quickly and easily.

#### **Spray extraction nozzle for upholstery cleaning**

Upholstery and car seat cleaning deep into the fibres.

Order no. 2.885-015.0

#### **Flat pleated filter SE 5.100**

Allows wet and dry vacuuming without having to change the filter.

Order no. 6.414-498.0

#### **Liquid carpet cleaner RM 519**

Liquid cleaning agent with quick dry formula for intermediate cleaning.

Order no. 6.295-771.0

#### **Filter set SE 5.100**

5 highly tear-resistant paper filter bags with outstanding filter capacity.

Includes 1 micro filter.

Order no. 6.904-143.0

# VACUUMING WITHOUT FILTER BAGS.

## DS 5.800 Waterfilter

- Energy-efficient device
- Easy to clean
- Accessory storage on the device
- Space-saving parking position

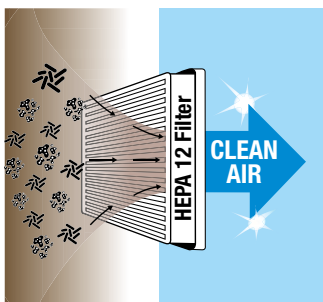

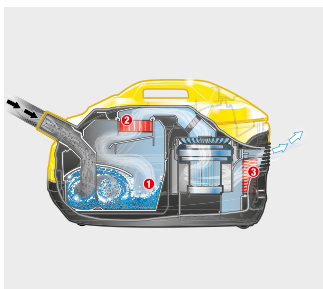

### Technical data

Rated input power	W	900
Working radius	m	10.2
Water filter	l	2
Dimensions (L × W × H)	mm	535 × 289 × 345

### Accessories

Switchable floor nozzle	■
Crevice nozzle	■
Upholstery nozzle	■
Filter	HEPA 12 filter*
Telescopic suction tube	■
"FoamStop" defoamer (30 ml)	■
Order number	1.195-210.0

More information on devices at [www.kaercher.com](http://www.kaercher.com)

### Multi-stage filter system – for 99.9% clean air

- The multi-stage filter system ensures that even tiny, microscopic dirt particles are extracted, leaving the air 99.9% clean.
- The washable, long-lasting intermediate filter filters out tiny airborne particles from the condensed humid air.
- The HEPA high efficiency filter retains allergenic pollen, fungal spores, bacteria and secretions of mites.

### Exceptionally easy water filter cleaning

The individual parts of the water filter just need to be rinsed under a running tap – quick and easy.

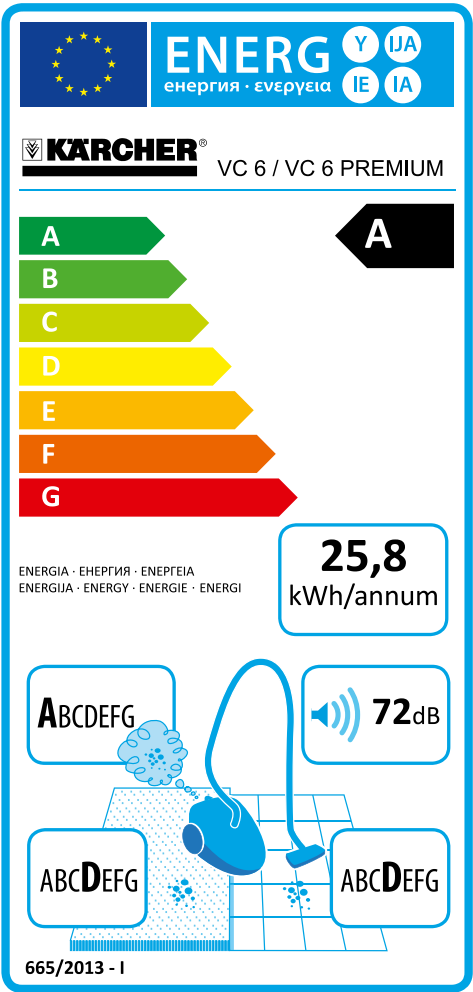

### Accessory storage on the device

No more running around trying to find all those accessories anymore! All of the accessories can be neatly stored within easy reach in the device's accessory compartment.

■ Included in the scope of supply.

\* EN1822:1998

# THE EU ENERGY LABEL FOR VACUUM CLEANERS.

A law has been introduced EU-wide to enforce what Kärcher has long since demonstrated with its multi-purpose vacuum cleaners and water filter vacuum cleaners: efficient cleaning with less power. The EU Energy Label for vacuum cleaners, which came into effect on 1 September 2014, limits the nominal power of mains-operated dry vacuum cleaners to a maximum of 1600 W. Every machine sold in Europe must therefore be labelled with the EU Energy Label.

#### Energy efficiency class at a glance

The energy efficiency class is a standardised system of classification across the EU and is recognisable at a glance. The system of classification from A to G, which came into force on 1 September 2014, allows a direct comparison. Categorisation into an energy efficiency class is based on annual energy use (AE), which is calculated using a range of parameters. The power input of the vacuum cleaner is therefore particularly crucial, though the cleaning effect is also part of the assessment criteria.

**25.8**  
kWh/annum

#### Annual energy use

The annual energy use (AE) refers to a defined number of cleaning processes (50 per year) on a standard living area (87 m<sup>2</sup>) and is shown as a reference value on the Energy Label. This value must be less than 62 kWh/a (class G) and is given particular prominence on the Energy Label. However, the actual annual energy use depends on user behaviour, in particular the level of cleanliness, cleaning surface and cleaning frequency.

 **72dB**

#### Sound power level

Not only is saving energy a practical way to protect the environment, reducing noise levels is also beneficial. A sound level difference of  $\pm 10$  dB(A) corresponds to either double or half the perceived sound level. A vacuum cleaner with a sound power level of 71 dB(A) is therefore only half as loud as one with 81 dB(A). The Energy Label showing the sound power level is an additional objective decision-making aid.

**ABCDEF G**

#### Dust re-emission class

For vacuum cleaners, over and above the cleaning performance, dust re-emission also plays an important role and is shown on the Energy Label as the classification A to G. Dust re-emission values are calculated by the manufacturer using a standardised measurement method in accordance with the EU Regulation.

**ABCDEF G**

#### Cleaning class performance for hard floors/carpets

The differences between cleaning hard floors and carpets are significant and cannot be compared directly. The cleaning classes for hard floors and carpets in classes A – G are therefore shown separately.

# SMART, ENERGY-SAVING VACUUM CLEANERS.

## VC 6 Premium

- Energy efficiency class A
- EasySlider obstacle guide for gentle vacuuming
- Remote control on the handle
- Optical highlight: Sides finished in exclusive stainless steel look

### Technical data

Energy efficiency class		A
Filter bag volume	l	4
Working radius	m	10
Weight	kg	6.6

### Accessories

Switchable floor nozzle	■
Integrated QuickClick accessories: furniture brush, upholstery nozzle and telescopic crevice nozzle	■
Electrical suction power regulation	On the handle (+/- button) with additional stand-by function
Filter	HEPA 12 filter*
Filter bag	Fleece
Telescopic vacuum tube	With sliding switch
Order number	1.195-605.0

More information on devices at [www.kaercher.com](http://www.kaercher.com)

#### **Exemplary energy efficiency**

The vacuums in energy efficiency class A have improved motors and floor nozzles. Despite the low rated input power at just 600 W, there is no loss in suction power.

#### **EasySlider obstacle guide**

A soft rotating ring that turns 360° guides the vacuum cleaner around obstacles. This protects objects from damage and makes it possible to quickly vacuum without interruptions.

#### **QuickClick nozzle removal**

With the unique QuickClick system, nozzles can be changed in no time with just one click – both on the handle and the telescopic tube.

#### **HEPA 12 filter\***

The HEPA 12 filter\* filters even the smallest allergenic particles and therefore has the lowest dust re-emission (category A).

■ Included in the scope of supply.

\* EN1822:1998

# ROBOCLEANER – CLEANS AUTOMATICALLY AND INDEPENDENTLY.

design award  
winner  
2004

## RC 3000

- For all household floors
- Plug 'n' Clean

### Technical data

Cleaning performance	m <sup>2</sup> /h	15
Cleaning duration per charge	min	20–60
Intake performance	W	600
Recharging time	min	10–20
Dirt receptacle RoboCleaner	l	0.2
Dirt receptacle charging station	l	2

### Accessories

Cleaning brush	■
Dirt sensor (4 cleaning programmes)	■
Fall sensors	■
Infrared navigation	■
All-round bumper strip	■
Filter bag	Paper
Order number	1.269-101.0

More information on devices at [www.kaercher.com](http://www.kaercher.com)

### **Advantages of the RoboCleaner**

The RoboCleaner cleans entirely by itself and avoids obstacles such as cables, with no problem. It cleans completely independently, four fall sensors reliably detect stairs and it travels over obstacles such as cables, etc.

### **Everything automatic**

Navigation is effected by an infrared beam. The RoboCleaner finds its own way back to the base station.

### **Dirt sensing system**

The RoboCleaner cleans with a combination of a sweeping roller and vacuuming. A sensor recognises the respective intensity of the dirt and adjusts the cleaning programme accordingly.

### **Detects every obstacle**

Integrated contact sensors guide the RoboCleaner around all obstacles. Its spring-mounted wheels enable it to cope with different types of floor coverings and smaller ridges.

# THE FLOOR POLISHER FP 303 – A SYSTEM THAT SHINES.

reddot design award  
winner 2009

## FP 303

- Optimum polishing results thanks to its high motor speed
- Ergonomic design and optimised shape
- Accessory storage on the machine

### Technical data

Speed	U/min	1000
Working width	mm	290
Filter bag volume	l	4
Rated input power	W	600

### Accessories

3 polishing pads	■
Filter bag	Paper
Cable storage	■
Textile bag incl. accessory compartment	■
Order number	1.056-820.0

More information on devices at [www.kaercher.com](http://www.kaercher.com)

#### **Extremely ergonomic**

Specially developed handle with optimised geometry. For very convenient cleaning.

#### **Practical storage**

The high-quality textile bag containing the filter bag is attached to the handle. The polishing pads are stored compactly in a separate accessory compartment.

#### **For polished corners**

The optimised triangular design of the polishing head allows corners to be reached more effectively.

#### **Easy to transport**

With the smooth-running wheels, the FP 303 can be transported easily.

# FASTER THAN A BRUSH - MORE CONVENIENT THAN A VACUUM.

## K 55 Plus

- Brushes can be changed for greater versatility
- 2 different brushes included
- Brush replacement at the push of a button

### Technical data

Area cleaned per battery charge	m <sup>2</sup>	60 - 100
Battery running time	min	30
Working width	mm	235 (pet hair brush) / 265 (standard brush)
Container capacity	l	0.5

### Accessories

Wall bracket	■
Battery charger	■
Long life rechargeable battery	■
Standard brush	Removable
Pet hair brush	Removable
Order number	1.258-509.0

More information on devices at [www.kaercher.com](http://www.kaercher.com)

#### **Cleaning close to edges**

Additional end bristles enable the K 55 plus to clean right up to the edges of objects.

#### **Removable roller brush**

The roller brush can be removed and cleaned easily.

#### **Compact storage**

Thanks to the wall bracket and battery charger, the cordless electric broom is always ready to use. The charger is located in the storage compartment.

#### **Clever idea**

The pet hair brush is surrounded by a mesh sleeve, which can be removed for cleaning. The hair gets caught on the brush and can be removed easily.

# THE NEW GENERATION OF BATTERY-POWERED WINDOW VACS.

As a result of its practical suction function and simple handling, window cleaning with Kärcher's new battery-powered Window Vacs is noticeably easier and quicker than it ever has been using traditional methods. Dripping water and puddles are a thing of the past. The devices are also ideal for other smooth surfaces like mirrors and tiles. The result is always the same: gleaming cleanliness with no streaks or residue.

### **Window cleaning – quick, convenient and clean.**

There's nothing like the original! As the inventor of the battery-powered Window Vac, Kärcher has revolutionised and perfected window cleaning. The devices make cleaning windows and other smooth surfaces easy and save a wealth of time and effort. Its electrical suction function makes the annoyance of drips a thing of the past. Its clever combination of spray bottle and wiper, together with the Window Vac's suction function, ensures highly effective cleaning and gleaming windows – without streaks or residue. In addition, the handy and ergonomic Kärcher battery-powered Window Vac makes window cleaning a pleasant and hygienic task, since it eliminates direct contact with the dirty water.

### **Perfect cleanliness – even with high windows.**

With the battery-powered Window Vac, even high windows, such as those in winter gardens, can be cleaned properly with little effort. This is possible with the practical extension kit from our range of accessories. The kit consists of a microfibre cloth with abrasive strips, which lets you remove even stubborn dirt reliably and easily, together with two telescopic poles: one to support the machine and one to wipe the window pane. The poles can be extended from 1.20 m – 2 m.

# WV 5 – THE FIRST BATTERY-POWERED WINDOW VAC WITH EXCHANGEABLE BATTERY.

## WV 5 Plus

- Complete solution to clean smooth surfaces
- Electric water suction
- No dripping water

### Technical data

Dirty water tank	ml	100
Battery running time	min	35
Battery charging time	min	210
Cleaning performance per battery charge		Approx. 105 m <sup>2</sup> = 35 windows
Working width of suction nozzle	mm	280

### Accessories

Lithium-ion battery	■
Battery charger	■
Spray bottle with microfibre cleaning cloth	■
Window cleaner concentrate (1 × 20 ml)	■
Order number	1.633-440.0

More information on devices at [www.kaercher.com](http://www.kaercher.com)

#### **Removable battery**

The removable battery and optional exchangeable battery allow non-stop window cleaning, without the need to charge the battery in-between.

#### **Soft grip handle**

The rubber coating at the handle makes the application still more comfortable.

#### **Convenient edge cleaning**

The adjustable spacers allow perfect, streak-free cleaning results right up to the edges.

#### **Battery level indicator**

3 LEDs above the on-/off switch show the current battery charging state.

# WV 2 – THE SMALL, LIGHTWEIGHT, HANDY BATTERY-POWERED WINDOW VAC.

## WV 2 Plus

- Complete solution to clean smooth surfaces
- Electric water suction
- No dripping water

### Technical data

Dirty water tank	ml	100
Battery running time	min	25
Battery charging time	min	140
Cleaning performance per battery charge		Approx. 75 m <sup>2</sup> = 25 windows
Working width of suction nozzle	mm	280

### Accessories

Lithium-ion battery	■
Battery charger	■
Spray bottle with microfibre cleaning cloth	■
Window cleaner concentrate (1 × 20 ml)	■
Order number	1.633-301.0

#### **LED display in field of vision**

Energy management made easy: one glance at the LED display will tell you the current status of the battery.

#### **Light and quiet**

The light weight and low noise level make window cleaning with the WV 2 even more pleasant.

#### **Compact and handy**

Even the bottom edge of the window is easy to reach with the Kärcher battery-powered Window Vac.

#### **Quick to empty**

The dirty water tank can be emptied quickly and easily as required.

# DUST-FREE DRILLING WITH THE DDC 50.

reddot design award  
winner 2006

product  
design  
award  
2007

## DDC 50

- Vacuum holding function for all common interior surfaces.
- No additional vacuum cleaner or special drill are required
- Both hands are left free to drill

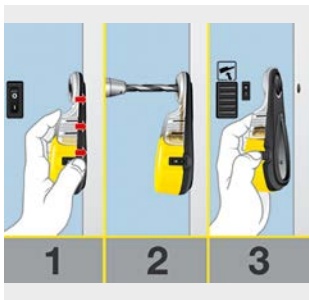

### Technical data

Container capacity	cm <sup>3</sup>	23
Drill size	mm	Max. 10
Weight	g	236
Dimensions (L × W × H)	mm	160 × 80 × 40

### Accessories

Batteries: 2 × 1.5-V AA LR 6	■
Protective cover	■
Order number	1.679-100.0

More information on devices at [www.kaercher.com](http://www.kaercher.com)

### Neat solution

Thanks to the vacuum holding function, the DDC 50 clings to the wall and catches the drill dust directly where it forms. No other machine or accessories are required. Suitable for any drill and a drill bit up to 10 mm.

### Batteries included

The DDC 50 comes with two 1.5-V AA batteries – battery operation is also possible.

### Outstanding time savings

The DDC 50 can catch up to 23 cm<sup>3</sup> of drill dust, which is equivalent to around 10 holes with a 6 mm drill bit.

### Very easy to use

Place the machine in position, switch it on, drill and switch off the DDC 50 once drilling is complete. It's as simple as that!

# SC – THE NEW STEAM CLEANER SERIES.

The new steam cleaner range from Kärcher offers the perfect steam cleaner for any requirement. The devices clean without the use of chemicals and can be used virtually anywhere. Whether in the bathroom, kitchen or lounge, they remove 99.99 % of all common household bacteria from hard surfaces. The devices offer greater hygiene and a higher cleaning performance than conventional manual cleaning methods with detergent.\* Powerful steam and the variety of accessories ensure that fittings, tiles, hobs, extractor hoods and even the smallest corners and edges are cleaned thoroughly.

### **Cleanliness without chemicals, deep into the pores**

The renowned Laboratory Enders for Medical Diagnostics in Stuttgart has confirmed that Kärcher steam cleaners remove 99.99 % of all common household bacteria from hard surfaces using just steam and without the use of chemicals. The high temperature of the steam and excellent moisture penetration of the cloths reliably eliminate bacteria. For a healthy – and child-friendly – living space.

### **Cleanliness throughout the house**

Put a stop to tiresome scrubbing and scouring! Kärcher's highly efficient steam cleaners make cleaning effortless and ensure impeccable cleanliness throughout your entire home. The devices are extremely versatile and can replace a variety of conventional cleaning utensils thanks to the wide range of available accessories. Typical areas of use include common hard floors throughout the home – in kitchens (like fittings, sinks, extractor hoods, work surfaces) and bathrooms (like shower cubicles, fittings, sinks, tiles and crevices).

\*Thorough cleaning with Kärcher steam cleaners achieves a higher cleaning performance than manual cleaning with a mop and detergent. Tested in accordance with international performance standards.

\*\*Thorough cleaning with the Kärcher steam cleaner removes 99.99% of all common household bacteria from common household hard surfaces.

# OUTSTANDING SELECTION: THE NEW SC RANGE

Hand nozzle, detail nozzle, round brush	■
Order number	1.512-503.0

More information on devices at [www.kaercher.com](http://www.kaercher.com)

#### **Variable steam flow control**

Thanks to the steam flow control on the SC 5, the steam volume can be adjusted at any time to suit the surface or level of dirt.

#### **Extra clean thanks to VapoHydro**

Thanks to the VapoHydro water function, hot water can be added to the steam to eliminate stubborn dirt. The steam dislodges the dirt and the water washes it away.

#### **Ergonomic and convenient floor nozzle**

The new Floor Nozzle Comfort Plus with flexible joint can be adapted to suit any height of person. Contact with dirt is avoided when changing the cloth thanks to the cloth change system.

#### **Accessory storage with cable compartment**

With the practical accessory storage, accessories can be neatly stored and quickly accessed. The integrated cable compartment prevents the cable from becoming tangled.

■ Included in the scope of supply.

\* Thorough cleaning with the Kärcher steam cleaner removes 99.99% of all common household bacteria from common household hard surfaces.

#### **No need to change the filter**

The vacuumed liquid and dirt are securely bound in a water filter and then easily emptied later.

#### **Running smoothly**

With the special rubber lip attachment, windows, tiles, mirrors and other smooth surfaces can be cleaned in a single wipe.

#### **3-in-1 cleaning**

Our steam vacuum cleaner can vacuum, steam clean and dry – all in one operation. This makes it ideal even for large areas of tiles, natural stone or PVC.

#### **Cleaning at full steam**

Hot steam loosens dirt and neutralises unpleasant odours. Loosened dirt and steam are vacuumed up immediately after cleaning.

# PART OF THE FAMILY - THE RIGHT ACCESSORY.

Vacuuming, upholstery cleaning, changing wallpaper - there is always something to do at home. Kärcher provides an extensive range of original accessories for various applications. They turn all our devices into special purpose products. Equipping your vacuum or steam cleaner with special accessories enables you to solve many difficult problems with ease.

#### **Cleanliness in every detail**

Whether on stainless steel surfaces, mirrors, shower cabins or floors – Kärcher microfibre cloths eliminate stubborn dirt in no time. The special “bathroom” and “kitchen” cloth sets ensure outstanding cleanliness – without exception. Together the high-quality microfibre cloths and Kärcher steam cleaners make an unbeatable team – without cleaning agents. For convenient cleaning that saves you time and energy. Kärcher also offers a wide range of other interesting accessories for its steam cleaners, which considerably extend their range of possible uses.

#### **For a brilliant shine**

With the FP 303, Kärcher offers a complete solution for optimal care and value retention of hard floors: Floor polisher, polishing pads and various care agents – we have the right combination for every floor covering.

#### **For optimal dirt removal**

The spray bottle with microfibre cloth included with the Kärcher battery-powered Window Vac ensures that dirt is removed from all smooth surfaces such as windows, mirrors, tiles, etc.

# NOZZLES, PADS AND FILTERS.

Even the strongest suction power isn't much help without the right accessories for the job. That's why Kärcher offers an extensive range of accessories and special nozzles and brushes for any application. The right accessories guarantee the best cleaning results every time on different materials, and ensures that cleaning is effortless.

#### **Polishing pads for the Floor Polisher FP 303**

For perfect polishing results on a range of floor coverings.

# ENJOY YOUR GARDEN – WITH A CLEAR CONSCIENCE.

**Table of contents**

146	Watering systems
170	Booster pumps
182	Drainage pumps
188	Accessories for pump systems

A garden in bloom needs a lot of care. And water. Kärcher garden products combine advanced innovative technology with sustainability, allowing responsible and resource-conserving water consumption. In practical terms, this means that the necessary water is intelligently controlled, distributed by energy-efficient means and delivered to precisely where it is needed with as little loss as possible. Discover the difference. With Kärcher.

# WATERING WITH A CLEAR CONSCIENCE.

Watering products from Kärcher are designed to work in perfect unison, allow you to work responsibly with natural resources and ensure that precious water is used in the most effective and economical way. Innovative technology and precise sensors guarantee that your plants are provided with the exact amount of water that they require to grow. To allow you to get maximum pleasure from the natural beauty of your garden, Kärcher provides maximum-efficiency sprayers, spray guns, sprinklers, hoses, water timer, hose connection systems and storage systems.

### A sprinkling of options

Kärcher garden sprayers combine great functionality, perfect ergonomics and good design. Whether it's a fine spray mist, a gentle water flow or a powerful water jet – there's a corresponding setting for every application. Kärcher sprayers, nozzles and spray lances are compatible with all click systems available on the market.

### For every garden

Large or small, flat or sloping – Kärcher's range of circular sprinklers offers the right solution for every garden. And in order to make setting up and adjustment easier, Kärcher's oscillating sprinklers are even equipped with a splash guard.

### Hose connectors

Kärcher's robust and durable universal hose connectors are compatible with the three most popular hose diameters and all available click systems. The Aqua Stop function makes uncoupling easy and spray-free.

### SensoTimer ST6 eco!ogic

The new ST6 and ST6 Duo eco!ogic water timer offer flexible adjustment options with individual control of the watering tailored to the needs of the garden. The sensor measures the moisture level around the roots of the plants and transmits this by radio to the SensoTimer. When the moisture falls below the desired level, the watering starts automatically at the next designated time.

# KÄRCHER RAIN SYSTEM® SETS – FOR MADE-TO- MEASURE WATERING.

The Kärcher Rain System® can be individually adapted to suit any garden and works perfectly together with the SensoTimer to provide a watering control system based on the requirements of the garden. The system is available in a variety of ready-to-use sets: from the beginner to the deluxe set – practical carry case included. The various micro spray and drip nozzles, together with the perl hose, ensure optimal, targeted garden watering – suitable for gardens of any size with any plants.

#### Flexible layout

Thanks to the connection pieces, the Kärcher Rain System® hose and trickle hose can be used in any combination.

#### Targeted watering

Drip nozzle with volume adjustment for targeted watering directly onto the plants.

#### Efficient drip irrigation

Reliable watering for all of your plants. Suitable for planted areas up to 50 m in length.

#### Area watering

Micro spray nozzles with three different spraying patterns (360°, 180° and 90°) and adjustable water volumes.

### Deluxe Irrigation Set

- Set contains SensoTimer ST6 Duo eco!ogic including 2 moisture sensors
- Includes 10 m Perl hose and 1 × 15 m and 2 × 10 m Kärcher Rain System hoses (both as a supply hose and for the sprayers)
- Set includes: 4 T-connectors with water flow rate regulation, 4 I-connectors, 10 drip nozzles, 15 micro spray nozzles (3 × 360°, 6 × 180° and 6 × 90°), 10 sealing collars for resealing holes, 15 hose spikes to fix the hoses, 5 hose stops, 1 filter and 2 connectors
- 1 G1 tap adapter with G3/4 reducer

# TECHNOLOGY FULL OF IDEAS.

The wide selection of Kärcher spray sprinklers provides the optimum solution for every garden – whether large, small, flat or sloping. With the unique splash protection of the new line of oscillating sprinklers, setup is made even easier: no more going back and forth between the water tap and the sprinkler, and you can find the right position for your sprinkler very quickly without getting wet! All models can be easily connected to the garden hose and are compatible with all commercially available click systems.

### Oscillating sprinkler

Continuously adjustable watering area up to maximum 320 m<sup>2</sup>.

### Stay dry

Protected from the water, you can comfortably adjust the watering area and water volume.

### Convenient alignment

The splash guard protects the operator when the sprinkler is being aligned.

### Variable width of spray

The width of spray can be regulated by switching off the nozzles.

## Oscillating sprinkler OS 5.320 SV

- Spray width adjustment
- Durable gearing system
- Comfortable alignment thanks to the splash guard
- Adjustable water volume (0 - max)
- Maximum watering area 320 m<sup>2</sup>
- Adjustable width of spray

2.645-135.0

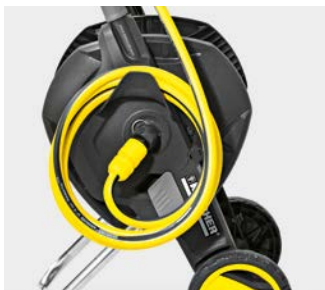

# NEW FREEDOM OF MOVEMENT.

Greater mobility, less pulling and tugging: hose trolleys from Kärcher make gardening considerably easier. Now that the hose can be moved effortlessly from A to B on the hose trolley, the chore of dragging it through the garden is no longer necessary. Obstacles can be bypassed effortlessly and smoothly. The hose is simply unwound and laid down along the route on the ground.

#### Mobile with style

Simply place the short end of the hose over the hook, store accessories directly on the hose trolley and move it comfortably to the location of use.

#### More manoeuvrability

No more annoying tugging on the hose: with the new hose trolley, obstacles can now be bypassed smoothly and with ease.

#### Compact comfort

The new Kärcher hose trolley takes up minimal storage space.

#### Robust and durable

High-quality metal hose trolley for discerning gardeners.

### Metal hose trolley HT 80 M

- Robust, rust-resistant steel frame and drum
- Non-slip, ergonomic handle
- Height-adjustable handle
- Hose guide and freewheeling crank handle
- Angled hose connection
- With two universal hose connectors Plus (2.645-193.0)

Order number

2.645-042.0

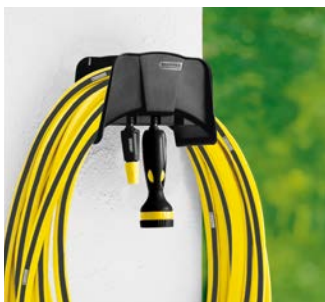

# PERFECTION IN HOSE STORAGE.

No more tripping hazards and hoses left lying around. With Kärcher's practical storage systems, hoses can be elegantly stored and quickly brought out again when needed. For example the premium CR 7.220 automatic hose reel features smooth automatic hose retraction, integrated angle adjustment and 180° swivel function.

### Always close at hand

No untidiness, no hunting around: the new hose hangers and reels provide ample storage space for your garden accessories.

### Hose hanger

Practical hose hanger to mount on walls.

### Functional and discreet

No snagging, no unsightliness: The wall bracket with its extra flat design is very discreet. The CR 7.220 Automatic can be safely mounted and removed again.

### Delightfully compact

Ideal for balconies: Lightweight and with compact dimensions, the CR 3.110 Balcony is very easy to transport.

## Premium CR 7.220 automatic hose reel

- With tidy automatic hose retraction
- Smooth hose winding
- Flat, space-saving wall bracket
- Can swivel from 0° - 180°
- Includes 20 m plus 2 m high-quality, phthalate-free 1/2" hose, spray gun Plus (2.645-177.0), 1 hose connector, 1 hose connector with Aqua Stop, G3/4 tap adapter and G1/2 reducer

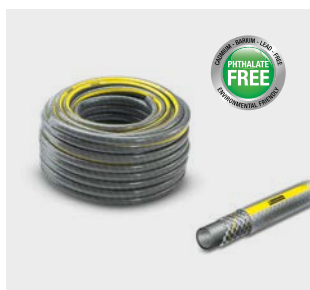

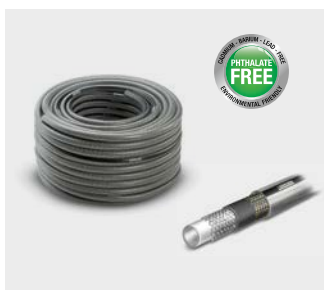

Order number

# SELF-SERVICE FOR YOUR FLOWERS.

The new ST6 and ST6 Duo eco!ogic water timer offer flexible adjustment options with individual control of the watering tailored to the needs of the garden. The sensor measures the moisture level around the roots of the plants and transmits it by radio to the SensoTimer. When the moisture falls below the desired level, the watering starts automatically at the next esignated time point.

### Intelligent watering

When the level of soil moisture becomes too low, watering starts automatically at the next designated time.

### Water Timer WT 5

Thanks to its precise programming every weekday, the WT 5 is especially suitable for regions with watering restrictions.

### Continuous radio contact

Wirelessly – the level of moisture measured in the soil is transmitted to the SensoTimer every 30 minutes.

### Water Timer WT 2

Combines the advantages of a 3-way tap adapter and a water timer in a single product.

## SensoTimer ST6 Duo eco!logic

- Watering controlled by moisture levels: starts automatically when the soil moisture falls below the desired level; can be set to five different levels
- Can be set for 2 watering times (mornings and evenings)
- Pause mode: deactivates watering for 24 h
- eco!logic mode: watering times can be delayed by 1 - 7 days
- Detachable display for convenient programming
- Includes tap adapter and prefilter

Order number

2.645-214.0

# BOOSTER PUMPS – RELIABLE AND DURABLE.

Any home owner who has seen their water bill recently knows that drinking water is becoming more and more expensive. So why not use low-cost water from alternative sources? Pressure-generating pumps from Kärcher offer the right solution for every purpose. Wells, groundwater, rainwater and springs are best used in the washing machine, for flushing the WC and for garden watering.

### Use water sensibly

Home and garden pumps in the BP Home & Garden range are high powered and convenient: the pumps switch on and off automatically according to water demand. When connected to a cistern, they can supply washing machines or WCs in the house, and because of their constant operating pressure, simultaneously handle the garden watering. The multi-stage pumps offer maximum power, efficiency and quiet operation, since they require a 30% lower motor rating for the same water flow rate when compared with conventional jet garden pumps. In addition, the ecologic models are fitted with a 0-watt stand-by function – and are therefore even more economical.

### Highly impressive

Thanks to Kärcher's compact and versatile stainless-steel submersible pressure pumps, you can even use deeper alternative water sources for convenient and resource-conserving watering. Whether installed in a cistern or in a deep well, the multi-stage hydraulics ensure that rain water, well water, ground water and spring water will always be supplied at sufficient pressure. The Kärcher BP 4 & 6 Deep Well models are excellent in this respect, with especially simple and convenient operation. It's made possible by the direct on/off switch at the end of the cable. An integrated standing leg provides the pump with reliable protection from contamination during installation.

# KÄRCHER GARDEN PUMPS – POWERFUL PACKAGES THAT ARE EASY TO OPERATE.

**reddot award 2014**  
best of the best

## BP 4 Garden-Set

- All garden pumps can be connected without tools thanks to the optimised connection adapters
- Maximum safety thanks to the integrated thermal protection for a long operating life
- Direct use thanks to the 3/4" spiral hose supplied (3.5 m) including filter and non-return valve

### Technical data

Max. motor rating	W	1000
Max. flow rate*	l/h	4000
Max. delivery height / max. pressure	m/bar	45 / 4.5
Max. suction height	m	8
Cable length H07RN-F	m	1.5

### Equipment

Convenient carrying handle	■
Optimised connection adapters	■
Connection adapter for G1 pumps	■
Convenient foot switch	■
Thermal protection	■
Order number	1.645-352.0

More information on devices at [www.kaercher.com](http://www.kaercher.com)

#### **No need to bend over**

Thanks to the large foot switch, the pump can be switched on and off comfortably in such a way that it protects your back.

#### **Perfectly protected**

The built-in thermal protection protects the pump from overheating.

#### **Easy to transport**

The ergonomic handle makes it easy to handle.

#### **Ready to use**

The BP 4 Garden Set complete with connectible vacuum-resistant spiral hose with suction filter and non-return valve.

- Included in the scope of supply.

\* Tip: The capacity of the pump depends on the delivery height and the connected hoses and watering systems. The lower the delivery height and the larger the diameter of the connected hoses and watering systems, the higher the flow volumes.

# THE PERFECT PUMP FOR HOME AND GARDEN.

reddot award 2014  
best of the best

**30 %**  
Energy-saving

## BP 7 Home & Garden eco!ogic

- Perfect for home & garden
- Extra long operating life
- Multi-stage for improved energy efficiency and noise levels
- Energy-saving thanks to the 0-watt stand-by mode

### Technical data

Max. motor rating	W	1200
Max. flow rate*	l/h	6000
Max. delivery height/max. pressure	m/bar	60/6.0
Max. suction height	m	8
Cable length H07RN-F	m	1.85
Pump type		5-stage

### Equipment

Automatic start/stop function with dry-running protection	■
Includes prefilter and non-return valve	■
Convenient foot switch	■
Fault display	■
Order number	1.645-356.0

\*\* In comparison with jet pumps, based on the water volume pumped.

### Safe and durable

Kärcher Home & Garden pumps come equipped with a prefilter, non-return valve and dry-running protection as standard.

### Well informed

In the event of a breakdown, the error display indicates where the exact cause of the breakdown lies – on either the suction or pressure side.

### Energy-saving

The 0-watt stand-by function on the ecologic models reduces power consumption. This makes it easy on both your budget and the environment.

### Twice as practical

The 2-way connection adapter allows you to use two water outlets simultaneously, for example for manual watering in addition to watering the lawn using sprinklers.

- Included in the scope of supply.

\* Tip: The capacity of the pump depends on the delivery height and the connected hoses and watering systems. The lower the delivery height and the larger the diameter of the connected hoses and watering systems, the higher the flow volumes.

# BARREL PUMP – UTILISING AND CONSERVING RESOURCES.

## BP 1 Barrel-Set

- Ideal barrel pump set
- BP 1 Barrel with accessories: Spray gun 2.645-104.0, 15 m 1/2" PrimoFlex® hose, universal hose connector 2.645-191.0, universal hose connector with Aqua Stop 2.645-192.0

### Technical data

Max. motor rating	W	400
Max. flow rate*	l/h	3800
Max. delivery height/max. pressure	m/bar	11 / 1.1
Max. immersion depth	m	7
Cable length H05RN-F	m	10

### Equipment

Convenient carrying handle	■
Flexible clamping device	■
Integrated on/off switch in the float switch	■
Includes Prefilter	■
Order number	1.645-465.0

More information on devices at [www.kaercher.com](http://www.kaercher.com)

### Easy and light

The perfect replacement for a watering can: using a barrel pump to pump rain water is easy on your back and saves valuable drinking water.

### Innovative and convenient

Kärcher drum pumps are equipped with a convenient carrying handle, a length-adjustable hose and a prefilter.

### Perfect fit

The water barrel mounting clamp guarantees perfect hold and connects to all barrel designs.

### Practical and secure

The integrated on/off switch on the barrel mounting clamp allows quick switching on and off on the spot, thus saving energy.

- Included in the scope of supply.

\* Tip: The capacity of the pump depends on the delivery height and the connected hoses and watering systems. The lower the delivery height and the larger the diameter of the connected hoses and watering systems, the higher the flow volumes.

# SUBMERSIBLE PRESSURE PUMP – DEEPLY IMPRESSIVE.

## BP 6 Deep Well

- Pump housing and threaded connectors made from stainless steel
- 3/4" and 1" hose connection piece including non-return valve and hose clamp
- Integrated spacer base assists during installation
- Separate on/off switch at the end of the cable
- Includes 30 m power cable and fastening rope

### Technical data

Max. motor rating	W	1000
Max. flow rate*	l/h	5000
Max. delivery height/max. pressure	m/bar	55/5.5
Max. immersion depth	m	27
Diameter	mm	99
Cable length H07RN-F	m	30

### Equipment

Pump housing and threaded connector	Stainless steel
Includes hose connection piece with hose clamp	1", ¾"
Integrated non-return valve	■
Spacer base assists during installation	■
Order number	1.645-422.0

More information on devices at [www.kaercher.com](http://www.kaercher.com)

### Safe and robust

Casing and threaded connectors made from stainless steel ensure that Kärcher submersible pressure pumps are impact-resistant and durable.

### Easy to use

The Deep Well Box provides overcurrent protection and is equipped with an on/off switch that is easy and safe to operate.

### Optimum protection

The spacer base on the BP Deep Well protects the pump against contamination during installation and protects the prefilter throughout the entire operating life of the pump.

### 30 m maximum depth range

Thanks to its extra long cable (30 m), the BP 6 Deep Well can pump water from even the lowest depths. Fastening rope included.

- Included in the scope of supply.

\* Tip: The capacity of the pump depends on the delivery height and the connected hoses and watering systems. The lower the delivery height and the larger the diameter of the connected hoses and watering systems, the higher the flow volumes.

# INTELLIGENT SUBMERSIBLE PUMPS.

Kärcher submersible pumps provide reliable protection from water damage due to their intelligent IQ Level Sensor. Thanks to the electronic sensors the pumps react immediately upon contact with water. Their adaptive pumping rhythm adjusts to various conditions and switches on at exactly the right time. The ceramic slide ring seal ensures an extra-long operating life.

#### **Start the water running from A to B**

Kärcher's drainage pumps don't leave anyone out in the rain. They are completely reliable and are ideal for pumping even large volumes of water away or to another location. Whether it's from a swimming pool, a laundry room, a cellar or a drainage shaft, these powerful submersible pumps transport cold water reliably to wherever you might wish. Remote control via the plug switch makes operating the SDP 18000 / SCP 16000 IQ Level Sensor even more convenient. The IQ Level Sensor, with its infinitely variable height adjustment, ensures reliable operation, reacting immediately to contact with water by turning the pump on or off. The intelligent system continuously adjusts the pump rhythm precisely to the volume of water, thus providing optimal protection automatically.

#### **Submersible dirty water pumps**

Dirty water is no problem for Kärcher's submersible dirty water pumps. The pumps reliably convey water containing dirt particles of up to 30 mm diameter from ponds or flooded cellars. The intelligent IQ Level Sensor and ceramic slide ring seal ensure that Kärcher submersible pumps always provide maximum operational safety.

#### **Submersible clear water pumps**

For clear or only lightly soiled water – in a pool or drainage shaft, for instance – the SCP range of Kärcher pumps is the answer. The removable stainless steel prefilter keeps coarse dirt particles out of the pump and thus lengthens its working life. Thanks to the folding legs, water can be pumped out right down to a level of 1 mm – wipe-dry results guaranteed!

### **Table of contents**

- 184 Submersible dirty water pumps
- 186 Submersible clear water pump
- 188 Accessories for pump systems

# SUBMERSIBLE DIRTY WATER PUMPS – WATERTIGHT BENEFITS.

## SDP 18000 IQ Level Sensor

- IQ Level Sensor: continuous definition of the switching level with adaptive pumping rhythm
- Push-button priming
- Detachable stainless steel prefilter
- Remote control via plug switch

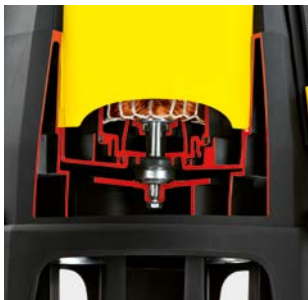

### Technical data

Max. motor rating	W	1100
Max. flow rate*	l/h	18000
Max. delivery height / max. pressure	m / bar	9 / 0.9
Max. immersion depth	m	8
Max. grain size	mm	30

### Equipment

Hose connection piece	1¼", 1" includes union nut and non-return valve
Ceramic slide ring seal	■
IQ Level Sensor: continuous definition of the switching level	■
Detachable stainless steel prefilter	■
Order number	1.645-104.0

More information on devices at [www.kaercher.com](http://www.kaercher.com)

### **Responds immediately**

The IQ Level Sensor on the submersible pumps reacts immediately upon contact with water by turning the pump on. The switching level can be selected as desired.

### **Easy to bleed**

If the pump does not immediately start drawing water following the initial startup, it can be bled simply at the touch of a button.

### **Complete water level control**

IQ Level Sensor for optimum protection thanks to the adaptive pumping rhythm.

### **Lasting protection**

The ceramic slide ring seal is always protected with oil, which increases the pump's lifespan significantly.

- Included in the scope of supply.

\* Tip: The capacity of the pump depends on the delivery height and the connected hoses and watering systems. The lower the delivery height and the larger the diameter of the connected hoses and watering systems, the higher the flow volumes.

# SUBMERSIBLE CLEAR WATER PUMP – FOR INFINITELY VARIABLE PUMPING.

## SCP 16000 IQ Level Sensor

- Infinitely variable definition of the switching level with adaptive pumping rhythm with pumping rhythm
- Flat pick-up up to 1 mm
- Detachable stainless steel prefilter and remote control via plug switch

### Technical data

Max. motor rating	W	900
Max. flow rate*	l/h	16000
Max. delivery height / max. pressure	m / bar	9 / 0.9
Max. immersion depth	m	8
Max. grain size	mm	5
Flat pick-up (up to)	mm	1

### Equipment

Hose connection piece	1¼", 1" including union nut and non-return valve
Ceramic slide ring seal	■
IQ Level Sensor: continuous definition of the switching level	■
Pump starts at low water level	■
Order number	1.645-154.0

More information on devices at [www.kaercher.com](http://www.kaercher.com)

### Safe

A detachable stainless steel prefilter protects the machine from coarse dirt, such as twigs, and thus from blockages in the pump impeller.

### Mop-dry results

When switched to flat pick-up mode, the submersible clear water pumps draw water down to 1 mm above floor level.

### Convenient

The switching level can be adjusted continuously simply by moving the IQ Level Sensor.

### Please select

The SDP 18000 and SCP 16000 IQ Level Sensor can be operated remotely by means of the plug switch.

- Included in the scope of supply.

\* Tip: The capacity of the pump depends on the delivery height and the connected hoses and watering systems. The lower the delivery height and the larger the diameter of the connected hoses and watering systems, the higher the flow volumes.

# THE RIGHT ACCESSORY FOR EVERY PUMP.

With the appropriate Kärcher accessories, the pumps can be put into operation quickly and easily. Vacuum-proof spiral hoses, suction kits, prefilters, adaptors, dry-running protection and electronic pressure switches – our comprehensive range of accessories will ensure that any task, in home or garden, can be tackled in the best possible way.

### Easy connection

By using Kärcher adapters and connections, you can join hoses and pumps together safely and without problems.

### Optimal protection

Filters protect the pumps from dirt and blockages whilst ensuring unhindered performance. Kärcher provides the right filter for every application.

### Robust and safe

The vacuum-proof spiral hose to connect to Kärcher pumps can be obtained as a set or cut to length for individual adaptation.

### Perfectly equipped

The correct accessories, from the dry-running protection to the pressure compensation hose, will ensure convenient and safe operation.
